PROJECTS

First Year Memories sharing page   *April, 2025*

A mini project made as the first year was nearing to an end that would store the like , regrets and memories made during the first year of their college.

- Used HTML , CSS and Js for building a simple UI with small animations to look simple and user friendly.

- Used Node Js and Mongo DB for backend environment and storing the database and running the backend .

- Used Render and Vercel for Backend and frontend deployment respectively .

Universe   *April,2025*

An ongoing project on a Alumni connect platform as Universe for colleges and Universities . The project aims to allow the students to take advices and mentorships from their college alumni and will allow alumni to post and share their thoughts .

- Frontend using React Js for giving a fast and interactive user experience

- Use of Google Firebase to store the login information of alumni as well as student and using Node Js with express for auth logic

- Building a live one to one call as well as scheduling by using Socket.io and webRTC which will also help in real time chatting.

To Do List   *May,2025*

A Full stack TO DO LIST to using authentication to store, update , edit and delete tasks

- Frontend using HTML and CSS
- Use of MongoDB Atlas to store data.
- Backend using ExpressJS

Website for Robotics Society   *May, 2025*

Worked in a team of four to design the +frontend of our college's Robotics Club i.e., VSSUT ROBOTICS SOCIETY by using ReactJS

Events Participated:

1. **Google Cloud Community days , Bhubaneswar**   *May, 2025*
2. **Hackathon CODE RELAY 3.O , IIT Bhubaneswar**   *February, 2025*
3. **Hackathon MUKTI 2025 , NIT Durgapur**   *January, 2025*
